PROJECTS   My Portfolio - https://nazamshiraz.netlify.app/

Forever(e-commerce) - Forever
Developed a fully functional e-commerce website using **React**, **Vite**, and **Tailwind CSS**. Integrated features like dynamic product filters, category search, and an add-to-cart functionality. Implemented responsive design, global state management with **React Context API**, and real-time notifications with **React Toastify**. Utilized **React Router DOM** for seamless navigation and optimized performance with **Vite**.

AskingMinds – https://nzmshrxz.github.io/AskAI/
Developed AskingMinds, a **React-based application** that utilizes the **Gemini API** to provide automated answers and solutions to user questions. Implemented an **intuitive chat interface** for seamless interaction, focusing on **real-time response capabilities** and **efficient API integration** to ensure a **dynamic user experience**.

Employee Management System – https://github.com/nzmshrxz/Employee-Management-System
Built an Employee Management System using **React**, with **local storage** for data persistence. The application features an **admin dashboard** that allows administrators to **assign tasks** to employees, **track progress**, and **manage employee details**.

NewsMonkey - https://github.com/nzmshrxz/newsapp
Developed a **dynamic news application** that fetches and displays the latest news across multiple categories using the **NewsAPI**. Built with **ReactJS** for seamless user interactions and **Bootstrap** for a **responsive** and **modern design**. Key features include **category-based filtering**, **real-time news updates**, and an intuitive layout to keep users informed effortlessly. Focused on providing a **user-friendly experience** with fast loading times and easy navigation.

Portfolio - https://nzmshrxz.netlify.app
Developed and maintained a personal portfolio website using **HTML, CSS, and JavaScript** to showcase my skills, projects, and experience. The site features a **responsive design**, **interactive elements**, and a **user-friendly interface**
